

# Cloud Security

Secure global content acceleration with  
up to **35 Tbps** bandwidth capacity

**35 Tbps**

**Network Bandwidth**

Ensure high performance and availability, even with peak traffic

**700**

**Edge Nodes**

We secure content globally through our extensive network

**1 Tbps**

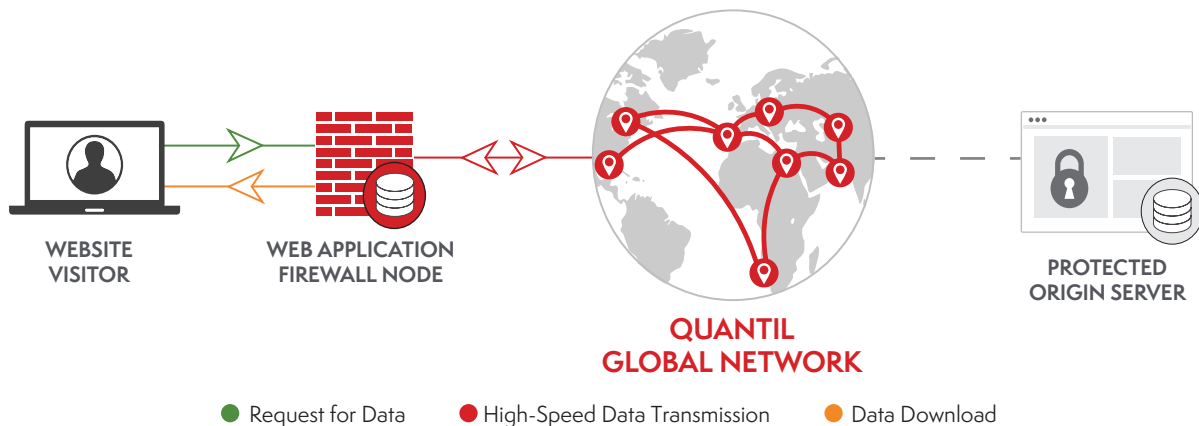

**DDoS Mitigation Capacity**

Secure your origin server using our network to mitigate DDoS attacks

# Cloud Security Features

Feature Description	Standard	Professional	Enterprise
Bandwidth for Normal Traffic	30 Mbps	50 Mbps	100 Mbps
DDoS Mitigation Capacity	30 Gbps	50 Gbps	Unlimited
Number of SSL Certificates	2	5	10
Number of Domain Names	30	50	100
Security Reports	✓	✓	✓
Bandwidth Threshold Alert	✓	✓	✓
Cloud Web Application Firewall (WAF)		✓	✓
Origin Server Monitoring		✓	✓
Website Defacement Protection		✓	✓
Cache Enhancement		✓	✓
Site Failover			✓
Websocket			✓

## The Process of Web Application Firewall
